About Us

Epsilon Nu Tau

Thank you for your interest in Epsilon Nu Tau!

Founded in 2021, our **professional business fraternity** was created with the values of accountability, ethics, brotherhood, and innovation. Together, we are a group of innovative, passionate students who aim to make a lasting impact on the world around us. Over the last five years, our organization has expanded to over 130 members (one of the **fastest growing organizations** on campus).

Our members develop real skills and **real relationships**, both personally and professionally. We've built strong partnerships with companies like KPMG, Nucor, Cummins, and Bank of America, and those relationships have been a big part of what makes ENT valuable for our members.

Here's what a partnership with us looks like in practice: direct access to a pipeline of high-achieving, team-oriented students, plus **concrete touchpoints** like corporate visits, case competitions, resume books, and on-campus networking events.

You're not just getting a logo placement; you're getting **consistent, meaningful engagement** with people worth knowing.

Throughout this corporate packet, you will learn more about who we are, what we do, and why we are excited to partner with your organization. Feel free to reach out with any questions and thank you for your consideration.

Best,
Lane Stuelpner
Vice President of External Affairs

CAMPUS LEADERSHIP

Our brothers are committed to **pursuing their interests** and taking on leadership roles within the communities they serve. Below are some of the organizations where they make an impact.

COMPANY PLACEMENTS

At Epsilon Nu Tau, we're committed to helping our brothers **develop professionally** throughout their time in the chapter. Below are some of the companies where our members have secured full-time offers and internships.

SOCIAL INITIATIVES

Here at ENT, we place a strong emphasis on **diversity** and **philanthropy**. Our members represent backgrounds from all around the world, so we understand the value that a wide range of perspectives brings to any professional environment. With this, we also prioritize **giving back to our community**, whether through **Rake-a-Thons**, fundraising efforts, or **donations to local organizations**.
